THE CLEAR CHOICE.

GRAINED WHITE | NEAREST RAL 9003

RESIDENCE^2

CASE STUDY.

Big feature windows with flush sightlines allow for plenty of extra light.

"I approached our chosen installer online after seeing good reviews about their company. Initially we thought we wanted a different type of window but then they told us about R^2.

Originally, I was opposed to a product made out of pvc-u as I much prefer timber or aluminium, however this window gives a clean, modern look that doesn't look like 'plastic' however it is extremely low maintenance.

We choose R^2 as it had a very clean and modern aesthetic, similar to aluminium and composite. The equal sightlines were very important to us and R^2 ticked all the boxes.

We would absolutely recommend Residence^2 to a friend. We love them, they are wonderful!"

ENERGY EFFICIENCY

R^2 has market leading thermal and acoustic values. Certified with a window energy rating of A++. it accommodates the most thermally and acoustically efficient 44mm triple glazing and 28mm double glazing, attaining u-values of 0.79 W/m²k with triple glazing, PassivHaus standard and 1.2 with double glazing, far surpassing the latest British Building Regulation requirements.

TESTING & SECURITY

R^2 achieves one of the highest classifications on the British standard weather test. It has also passed all security tests, the glazing bead is always on the inside which contributes to a higher security performance.

STYLE

R^2 can be made into many styles including open-out windows, fixed windows, French windows, bay and bow windows orangeries, conservatories, single and French doors. Fully personalise with our range of unique colour options and hardware. The possibilities are endless!

EQUAL SIGHTLINES

R^2 is built to unquestionable market leading design standards, this effective and high performance solution offers clean lines and advanced functionality. An elegantly flush sash exterior and a unique square interior gives Residence^2 its bold and modern appearance. All glass sightlines are perfectly equal providing symmetry, complementing the internal stylish square detail.

LOCK & HINGE RETENTION

R^2 boasts superior screw retention reinforcements, locks and hinges are secured firmly into position. It is also specifically designed to accommodate the additional weight of triple glazed units, allowing heavy duty hinges to fit and operate perfectly.

CONSERVATION
AREA APPROVED.

CLOTTED CREAM | NEAREST RAL 9001

PLEASE NOTE:

Building regulation Part F relates to ventilation, and new requirements around trickle vents when adding windows to a new home or replacing windows in an existing home.

It's worth noting that these regulations may differ for historic and traditional buildings like listed buildings and buildings within conservation areas. The homeowner can apply for an exemption from the Planning Council during the planning process.

RESIDENCE^2

CASE STUDY.

A mix of configurations gives this home a unique style.

"When starting our residence journey, we were recommended R^2 by a professional in the construction industry.

Our installer arranged a factory visit for us, where we got to see first-hand the excellent manufacturing process and attention to detail. It was the perfect balance of style and performance that drew us to Residence^2. We would definitely recommend Residence Collection windows without hesitation!

They have been a great investment for our project and represent excellent value for money."

NO FUSS
MAINTENANCE
FREE

MAINTENANCE FREE

Pvc-u is an insulating material, keeping you cosy in the winter and cool in the summer, contributing to lower energy bills and carbon emissions. All our windows and doors can be fully recycled up to 10 times, meaning a life span of approximately 350 years and we actually include a recycled material section within the profiles. As for maintenance, there's very little, no toxic paints, primers, preservatives or fungicides to keep your windows looking new; a simple wipe clean will do that.

9 CHAMBER DESIGN

R^2 has been engineered to meet current and anticipated future standards, made to CEN A wall thickness which is the highest classification in Europe. Other window frames typically offer 3 or 5 chambers and are usually 70mm wide, R^2 has 9 chambers and is 100mm wide, resulting in superior thermal, acoustic, strength and security performances.

RESIDENCE D
THE SECURE CHOICE.

FIND YOUR PERFECT DOOR

Are you looking for a door design that's a little different? Maybe you want contemporary elements to suit your taste or something more traditional that will complement the character of your home? Our range of purposefully designed door sashes allow you that choice, create a door design that will suit any property, regardless of the age or style and accompany your Residence² windows perfectly.

FRENCH DOORS

French doors can truly transform your home, flooding it with an abundance of natural light, as well as providing easy access to your garden or patio. Whether traditionally styled, contemporary or a character property, Residence² can be tailored to make French doors to perfectly complement your home. Available in a wide range of styles and finishes to suit the unique style and character of your home.

CREATE AN INDIVIDUAL DESIGN STATEMENT FOR YOUR HOME.

Add Georgian bar for a more period look or allow natural light to flood in by adding sidelights to your doors. The Residence Collection doors require very little maintenance and they have excellent thermal and sound proofing features.
You won't have to sacrifice on performance for beauty. Specially designed to suit a wide range of properties, you can start designing your doors today.

ENGINEERED DOORS

We understand how the right front door can be the centrepiece for your home aesthetic and truly complement your properties architecture. An engineered door from the residence collection will give you the 'wow' factor you are looking for: no more compromising on standard composite door sizes, make a door that fits your property perfectly.

Residence engineered doors can be used for front, back or side doors! Made to your exact size specifications, either open-in or open-out, with an extensive range of designs, colour option finishes and 28mm or 48mm glazing options, you can design the perfect door for your home.

RESIDENCE²

THE DREAM CHOICE.

THE RESIDENCE COLLECTION

SUSTAINABILITY PROMISE.

GREENER THAN YOU REALISE

PVCu is greener than you realise. It's an insulating material, keeping you cosy in the winter and cool in the summer, contributing to lower energy bills and carbon emissions. R² can achieve a Window Energy Rating (WER) of A++ and a U-value of 0.79 W/m²K which is PassivHaus standard so it's future proof too. All our windows and doors can be fully recycled and actually include a recycled material section within them. As for maintenance, there's very little, no toxic paints, primers, preservatives or fungicides to keep your windows looking fresh!

RESIDENCE²

CASE STUDY.

French Doors with sidelights allow for plenty of extra light.

"I have my own company in the building and construction industry, so I first found out about The Residence Collection after using the system in a clients project. I thought they were brilliant! When it came to choosing a window and door system for our own self build, I knew I wanted Residence.

The 100mm profile is ideal and it has the perfect square, minimal aesthetic we were looking for. Not only do they look great, they are thermally efficient and secure, so we have not compromised on performance.

We would absolutely recommend Residence to a friend, I recommend them to my clients too! We're extremely pleased with them."
